FIRE PREVENTION

Smokey the Bear always said, “Only you can prevent fires”, well, so can we!

Fires, large or small are bad news! They cause lost production time, destroy product and/or property, create added expenses, and of course boot insurance ratings.

SURFACE MAINTENANCE SERVICES can help reduce your chances of fires in various ways.

Some examples of prevention are:

- * Cleaning of ventilation systems
- * Vacuuming dust from pipes and rafters
- * Cleaning up oil and chemical spills
- * Pressure washing walls, ceilings and equipment
- * Painting of walls, ceilings and equipment
- * Washing or vacuuming of heating systems
- * Cleaning and changing of bags in baghouses

THE LIST GOES ON AND ON!!!

SURFACE MAINTENANCE SERVICES will give you a complete detailed estimate, based on a thorough analysis of the tasks to be done. We will make specific recommendations regarding the clean-ability and paint-ability of areas.

If you should have a fire, we can help you minimize lost time and money through our complete fire restoration program, just call us anytime. – day or night.

NO JOB IS TOO TOUGH, TOO BIG, OR TOO SMALL FOR SURFACE MAINTENANCE SERVICES. WE HAVE THE TECHNOLOGY AND THE TALENT TO MAKE YOUR PLANT CLEANER AND SAFER, WITH MINIMAL DOWNTIM AND DISRUPTION.
